Letter of Recommendation

To Whom it May Concern:

Ms. Martina Babinská has asked me to write a letter of recommendation. I am very pleased to do so. I have known her from 2005, when at the very beginning of her university study I was her teacher in the single variable calculus course. Later, from 2011 to 2015 I was the supervisor of her PhD thesis. This allowed me to see the great progress he made during the first 5 years of her university study. While working on her PhD thesis Martina Babinská demonstrated a broad range of skills, extraordinary sense of purpose, great scientific integrity, initiative, responsible approach, readiness to search for new knowledge. Now, when I have the opportunity to watch her work as a teacher and researcher on one of the departments of our faculty, I am very pleased to see her strong motivation for scientific work, her broad range of skills and ability to work independently.

I am confident that Ms. Martina Babinská will continue to be very productive. She has my highest recommendation.

If you have any further questions, please do not hesitate to contact me.

Bratislava, November 16, 2018.

Yours sincerely,

Zbyněk Kubáček
